

**156-00554**

Cable Tie and Edge Clip, 50lb, 8.0" Long, EC22, Panel Thickness .04"-.12", PA66HS, Black, 500/bag

Article Number: 156-00554

Part Number: 156-00554

Type: T50REC22

| Type                          | T50REC22                                                                                                                                                                                                                                                                                                                                                     |
| Color                         | Black (BK)                                                                                                                                                                                                                                                                                                                                                   |
| Features                      | <ul style="list-style-type: none"><li>• Edge Clip applies easily to plastic and metal sheets without the need for a mounting hole.</li><li>• Edge Clip provides low insertion force and high extraction force ideal for assembly environments.</li><li>• Two piece assembly allows the mount to slide along the strap ensuring proper orientation.</li></ul> |
| Application Method            | Cable tie and edge clip assemblies are primarily applied around a bundle by hand and tensioned using one of HellermannTyton's manual or pneumatic hand tools. The bundle is then secured to the mounting surface by inserting the clip onto the appropriate edge.                                                                                            |
| Identification Plate Position | none                                                                                                                                                                                                                                                                                                                                                         |
| Typical Application           | This cable tie and edge clip assembly is ideal for use where holes are not acceptable or where adhesives will fail due to temperature problems. Edge clips are widely used for fixing and bundling cables and wires within automotive, trucking, heavy equipment, solar panel, wind power, and white goods equipment manufacturing.                          |
| Variant                       | Inside Serrated                                                                                                                                                                                                                                                                                                                                              |
